Languages

Arabic	<div><div></div></div>
English	<div><div></div></div>
Germany	<div><div></div></div>

Web Development Student | Zero To Mastery Academy (ZTM)

09/2021 – 11/2021 | Toronto, Canada

Built a strong technical foundation by taking full-stack development and computer science courses with world-class Zero to Mastery instructors, supported by a 400k+ global developer community on Discord.

- Participated in regular code reviews with mentors.
- Tested websites, identifying technical and usability problems.
- Developed modular components in React with Webpack, JSX, and CSS Modules.
- Met priorities and objectives for simultaneous courses and projects.

Computer Science Student | CS50 (Harvard)

10/2020 – 02/2021

Massachusetts, United States

Learned most of low-level things from scratch, learned lots of tools such as, C, Python3, Flask, Java, XML, Swift, SQLite3, Lua, OOP so, I've created lots of projects in lots of fields using different technologies such as (mobile apps "Android, IOS", games and web) so, I have the whole picture. I have projects(from zero to deploy).

Projects:

- Android: Notes, Fiftygram, Pokedex
- IOS: Notes, Fiftygram, Pokedex
- Games: Pong, Mario
- Web: CS50 Finance
